

CLALLAM COUNTY
AMATEUR RADIO
CLUB

QTC
JANUARY 16

Spurious Emissions from AD7TV

First of all, I want to wish all of you a happy and prosperous new year and a thank you for allowing me to serve as your club president for 2016. Welcome to the newly elected club offices and those who are continuing to serve.

I want to give special thanks to George Hutchison for his service as president for the past year. His caring attitude toward the membership is truly appreciated.

We have a lot to look forward to in the coming year. The overriding theme will be to have a fun and educational time while we do radio related activities. The program committee has been tasked with arranging interesting and thought provoking presentations. The challenge is to come up with programs that will provide interest to all of the members. To bring this about we solicit input from each of you as to what you would like to see addressed in future meetings. This Wednesday you will have an opportunity to submit your suggestions during the meeting.

The program for this Wednesday will be an Introduction to Antenna Measurement and Tuning using equipment that will be made available to every club member. I'll endeavor to present it in such a fashion that you will be able to easily characterize your HF or VHF antenna and be confident that it is set up correctly.

Major activities for this year include: National Parks On The Air, Field Day and our fund raiser with the Fireworks Stand. The fireworks stand presents us with the challenge of finding someone to fill the role of Ernie Griffith who we lost last year.

There are many opportunities for service within the club with each of these and other activities and we look forward to many of you stepping up to fill these roles. I feel that "Elmering" is a key element of the ham radio community as it helps each of us to have more fun and learn new things.

I look forward to seeing each of you this coming Wednesday so please come loaded with suggestions for the coming year.

73, Dennis Tilton AD7TV

ARRL VE-L

January Program

Dennis, AD7TV
Will review the workings and
uses of common Antenna
Analyzers.

We need articles for the QTC newsletter. This is your newsletter.

Tell us how you became interested in Ham Radio. What did you do over the summer (just like school) huh!

Did you put up a new antenna, buy a new radio? Tell us about it.

Did you try a new mode again tell us about it.

The more you submit the less blank space we will have!

Thanks, the staff!

CCARC QTC Newsletter

Just a little background on the QTC.

We use ccarcqtq@yahoo.com as a repository for information for the newsletter. So if you have something for the QTC, please send it to the yahoo address. Do not sent it to one of the editors as they will just have to turn around and resend it to the yahoo address.

Please make sure the article or information is complete. As we rotate editing the newsletter you cannot be sure which editor will be piecing the newsletter together.

Please remove as much formatting from within whatever program you are using if you know how, before sending it to ccarcqtq. We do not edit, except to change fonts to a standard non-serf font (Arial which is easier to read than Times Roman). We will run a spell checker.

When first conceived the editors were given free license, it still is that way. It was understood they would endeavor to include everything submitted, within reason. For instance, off color jokes etc. are not going to be printed. Thanks,

Have an idea for a club program? Pass them along to the members of the program committee: Paula K7PAX, Rob AL7KK, or Chuck Jones.

Thanks.

2 METER NETS

CCARC :
Every Thursday 7:00 pm on the W7FEL Repeater.

ARES/RACES:
Every Tuesday except 1st Tuesday of the month at 7:00 pm on W7FEL Repeater.

W7FEL Repeater: 146.76 MHz, offset down 600 KHz. with a tone of 100 Hz.

W7RJW “Net” Working

Some local nets to listen in on/participate in. This is one good way to learn how we communicate on the airwaves as amateur (ham) radio operators. I spent a year just listening to a couple of these nets and how experienced operators talk to each other, before I even tried for my Technician license. It REAL- LY helped me a lot. I strongly recommend doing this on a regular basis. Enjoy!

Sunday:

LDS (Latter Day Saints) Emergency Net (you don't have to be a member to participate) 6pm on 146.760

Monday:

Elwha Emergency Net 5:30 pm On 146.760
WARA (West Coast Amateur Radio Association) Club Net (Victoria, BC Canada) at 7pm on 146.840

Tuesday:

ARES (Amateur Radio Emergency Services) Net 7pm on 146.760 (except for the first Tuesday of the month, when ARES meets at the Clallam County Courthouse)

Wednesday:

WARA (West Coast Amateur Radio Association) Emergency Net 7pm on 146.840 Simplex Net immediately following: on 146.580

Thursday:

CCARC (Clallam County Amateur Radio Club) Net 7pm 146.760

W7RJW Rebecca J. Winters
CCARES Net Control Coordinator

What's new on Ham Nation?
